
CHAPTER 6

RAIL FACILITIES, UTILITIES AND BUILDINGS¹

TABLE OF CONTENTS

Part/Section	Description	Page
1	Specifications and General Design Criteria for Railway Buildings	6-1-1
1.1	Organization of Bid Documents	6-1-3
1.2	General Design Criteria for Railway Buildings	6-1-5
1.3	Design Criteria	6-1-7
2	Design Criteria for Railway Office Buildings	6-2-1
2.1	Site Considerations	6-2-3
2.2	Functional Requirements	6-2-3
2.3	Spatial Requirements	6-2-5
2.4	Structural Requirements	6-2-10
2.5	Finish Materials	6-2-11
2.6	Mechanical Considerations	6-2-15
2.7	Electrical Equipment	6-2-17
2.8	Fire and Life Safety	6-2-18
3	Design Criteria for Spot Car Repair Shops	6-3-1
3.1	General	6-3-3
3.2	Site Considerations	6-3-3
3.3	Building Codes	6-3-4
3.4	Structural Requirements	6-3-4
3.5	Space Requirements	6-3-5
3.6	Mechanical, Electrical and Specialized Equipment	6-3-7
3.7	Finish	6-3-8
3.8	Miscellaneous Considerations	6-3-8

¹ The material in this and other chapters in the AREMA *Manual for Railway Engineering* is published as recommended practice to railroads and others concerned with the engineering, design and construction of railroad fixed properties (except signals and communications), and allied services and facilities. For the purpose of this Manual, RECOMMENDED PRACTICE is defined as a material, device, design, plan, specification, principle or practice recommended to the railways for use as required, either exactly as presented or with such modifications as may be necessary or desirable to meet the needs of individual railways, but in either event, with a view to promoting efficiency and economy in the location, construction, operation or maintenance of railways. It is not intended to imply that other practices may not be equally acceptable.

TABLE OF CONTENTS (CONT)

Part/Section	Description	Page
3.9	Mechanical	6-3-9
3.10	Environmental Control	6-3-12
3.11	Summary	6-3-12
4	Design Criteria for Diesel Repair Facilities	6-4-1
4.1	Introduction	6-4-3
4.2	Site Considerations	6-4-15
4.3	Building Arrangement	6-4-16
4.4	Equipment and Related Facilities	6-4-19
4.5	Service Facilities	6-4-25
4.6	Building Superstructure Details	6-4-31
4.7	Heating and Ventilation	6-4-33
4.8	Electrical Lighting and Power Supply	6-4-35
4.9	Pollution (Noise-Air-Water)	6-4-36
4.10	Communications and Data	6-4-37
4.11	Fire Protection	6-4-38
4.12	Blue Signal/Flag Protection	6-4-38
4.13	Storage Tanks	6-4-39
4.14	Track Drip Collection	6-4-39
5	Energy Conservation and Audits	6-5-1
5.1	Introduction	6-5-3
5.2	Elements of Energy Conservation Program	6-5-4
5.3	Strategies and Economics	6-5-5
5.4	Advances in Energy Cost Savings for Railway Buildings and Shop Facilities	6-5-6
5.5	Types of Audits	6-5-7
5.6	Organization of Railroad Energy Management Program	6-5-9
5.7	Audit Survey Instrumentation	6-5-10
5.8	Justification of Program	6-5-14
5.9	Appendix A	6-5-16
5.10	Appendix B	6-5-18
5.11	Appendix C	6-5-25
6	Locomotive Sanding Facilities	6-6-1
6.1	Introduction	6-6-2
6.2	Sanding Facility	6-6-3
6.3	System Types	6-6-6
6.4	Sanding Components	6-6-13
6.5	Environmental Considerations	6-6-18
6.6	References	6-6-19
7	Design Criteria for Railway Materials Management Facilities	6-7-1
7.1	Site Considerations	6-7-2
7.2	Functional Requirements	6-7-3
7.3	Fire Protection	6-7-6
7.4	Exterior Storage	6-7-6
8	Design Criteria for Railway Passenger Stations	6-8-1
8.1	Introduction	6-8-3

16.6	Environmental Protection	6-16-24
16.7	Fire Protection	6-16-26
17	Other Yard and Terminal Facilities	6-17-1
17.1	Stores	6-17-2
17.2	Storage	6-17-3
17.3	Design of Roadway Material Reclamation and Fabrication Facilities	6-17-4
17.4	Design of Yard Compressed Air Facilities for Train Air Brake Systems	6-17-11
Glossary		6-G-1
References		6-R-1

INTRODUCTION

The Chapters of the AREMA Manual are divided into numbered Parts, each comprised of related documents (specifications, recommended practices, plans, etc.). Individual Parts are divided into Sections by centered headings set in capital letters and identified by a Section number. These Sections are subdivided into Articles designated by numbered side headings.

Page Numbers – In the page numbering of the Manual (6-2-1, for example) the first numeral designates the Chapter number, the second denotes the Part number in the Chapter, and the third numeral designates the page number in the Part. Thus, 6-2-1 means Chapter 6, Part 2, page 1.

In the Glossary and References, the Part number is replaced by either a “G” for Glossary or “R” for References.

Document Dates – The bold type date (Document Date) at the beginning of each document (Part) applies to the document as a whole and designates the year in which revisions were last made somewhere in the document, unless an attached footnote indicates that the document was adopted, reapproved, or rewritten in that year.

Article Dates – Each Article shows the date (in parenthesis) of the last time the Article was modified.

Revision Marks – All current year revisions (changes and additions) which have been incorporated into the document are identified by a vertical line along the outside margin of the page, directly beside the modified information.

Proceedings Footnote – The Proceedings footnote on the first page of each document gives references to all Association action with respect to the document.

Annual Updates – New manuals, as well as revision sets, will be printed and issued yearly.

THIS PAGE INTENTIONALLY LEFT BLANK.
